

Status update #8 on the disassociation of FSC from APP

21 June 2019

The Forest Stewardship Council (FSC) suspended the process to design a roadmap for ending disassociation with Asia Pulp and Paper (APP) in August 2018 after APP failed to deliver a comprehensive response to FSC requests to disclose its corporate structure and allegations of its indirect involvement in continued unacceptable forest management practices.

This suspension shall remain valid until FSC receives an adequate response to these open issues.
